### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1, 12 and 27 the term "non-cylindrical" appears to be inaccurate. It appears that applicants are saying that since their surfaces have a convex or concave shape then they are "non-cylindrical". However, a shape such as an hour glass (having concave sidewalls) is still a cylindrical shape, therefore it is believed that the term "non-cylindrical" is inappropriate. Incorporating the terms "concave" and "convex" as recited in the dependent claims would resolve the issue.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Jacobson '245. Jacobson discloses a device containing all of the claimed elements including a saddle (38) for a mill (figure 2) comprising a saddle ring (portion 40 since is rings member 46 – read onto a shaft) having a non-cylindrical inner bearing surface (surface 44, col. 3, lines 64-66), an eccentric (member 24) connected to the shaft (46), the eccentric having a non-cylindrical bearing surface (surface 34, col. 3, lines 64-66) that engages the non-cylindrical inner bearing surface of the saddle ring (figure 5) where the surfaces are complementary (figure 5). A saddle shoe, as required by claim 11, is read onto member 86.

#### ***Allowable Subject Matter***

Claims 2 and 7 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 12 and 27 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
